

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Stitzel on 02/03/2011.

The application has been amended as follows:

Withdrawn claims 4-7 are cancelled.

***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach nor render obvious the subject matter of claim 1 including dividing a molding composition into a first and second composition, extruding the first as a tube and the second as a rod in which the rod and tube are extruded and contacted within a vacuum tank calibrator about 20 centimeters after entry to fuse them together. Claims 2-3 and 8-10 depend from claim 1 and are therefor also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
